Thank you for purchasing the DIY CW board (for 80, 40, 30, 20 meters). A well stocked junk box can provide most of the parts needed to complete. Other parts can be purchased from kitsandparts.com.

If you feel you can't find all the parts needed to complete, you can order them from us at the email above. Please specify which band you desire.

You can order individual components or groups of components as follows:

Circuitboard	\$11.95
Pre wound toroids (specify band)	\$8.95
Rear panel connectors - BNC, power, headphone, and key jack	\$7.95
Hard to find parts - 2SC2078, 3-42IF123, toroids, 1SV149, 3-SA602, band specific selected crystals	\$24.95
Resistors/capacitors (specify band)	\$8.95
Wire, connectors, zeners, semi's, sockets, chokes (specify band)	\$8.95
Or a kit of all parts less circuitboard (specify band)	\$40.95
Shipping in the U.S. will be USPS 2 day	\$6.95

Manuals can be downloaded from above website.

Note: at this time we are working on the front panel parts and suitable enclosure. Periodically check the above website for latest updates for these parts.
